

My Relationship Hurts Me!

Oh boy! I'm Candy, and my problem is my boyfriend. We're together since 8 months. At the beginning, it was perfect, he was so kind, we were always together and he did everything for me, but since 2 months, he hurts me, he always insults me and he never wants that I see my friends without him. He always wants that we have sexual relations, but I don't want, I'm not ready for this and I think he doesn't respect me on that choice. Because of this situation, I'm not able to be concentrate at school, and I got bad grades. My mother always asks me questions about my relationship, because she saw that something was wrong. She always worries about me and she doesn't want that I see him anymore, but when I refuse to see him, he hurts me.

I tried to talk with him, but he screamed and began to insult me. I asked him to stop it, but he screamed stronger. I talked with my friend about the situation, and she told me that I should break up with him, but I don't want, but I'm scared that he hurts me more and stronger than now, and I love him so much.

I don't know what to do, I'm always crying, and I want to see my friends, but I also want to keep my relationship. (In a better way, sure!), CAN YOU HELP ME!
