

A Perturbing Discovery

Ewww ! I found something disgusting one week ago. I'm a sixteen year old boy and usually my life is really normal but right now there's a dead body in my basement and I don't even know who it is ! I can't tell it to anyone : I don't want to call the police because I will be suspected and my parents are in Florida for one month ... But I know I can't keep the body in my basement forever and I tried to transport it to throw it in the river but it was too heavy for me. I found it in a big trash bag so nobody noticed it but the corpse began to stink a lot and my friend told me that my house smelled strange. I don't want them to call the police, I'm pretty nervous. I'm also a littled bit scared to sleep in the same house than a cadaver. Who did that ? Is it my parents? Is it an unknow person ? My parents are coming back home in only two weeks and I can't continu to let things go on.

Please, can you help me ?
