

Chloé B. Melissa J.

Hi little boy,

You have a very big problem and we can see it. We will tell you some solutions and some advice. We will be with you all the time. Whenever you want, we will be there for you. First, you really need to sleep if not, you will die. We think you could sleep during your classes at school. You should also call the department of kids' protection. To not be bitten by snakes, look at the movie 'Tarzan' and take example on it. Use lianas to go from tree to tree. We hope that we help you. Have a great rest of life and take care of yourself!

Miss Sunshine
